SUMMARY

Data Analyst with hands-on experience in Python, SQL, Power BI, and Azure cloud services. Skilled in data cleaning, exploratory data analysis, and building scalable data pipelines. Strong ability to translate data into actionable insights to support business decision-making.

EDUCATION

California State University, Northridge
Master of Science in Business Analytics

Northridge, CA
Aug 2024 – May 2026

Anurag University
Bachelor of Technology in Computer Science

Telangana, India
June 2020 – June 2024

EXPERIENCE

Graduate Research Assistant
California State University, Northridge

Jan 2025 – May 2026
Northridge, CA

- Conduct literature reviews and perform data collection and preprocessing to build structured datasets for research analysis using Python, Excel, and SQL.
- Apply data cleaning, EDA, and statistical analysis techniques to identify trends and support data-driven research insights.
- Maintain research datasets and collaborate with the Principal Investigator to generate analytical reports and support research analytics workflows.

Data Analyst Intern
Pobyt

Jan 2023 – Jan 2024
Hyderabad, India

- Analyzed large datasets using Python (Pandas, NumPy) and automated workflows, improving campaign targeting accuracy by 15%.
- Wrote efficient SQL queries to extract and aggregate data, reducing report generation time by 40%.
- Performed data cleaning and data wrangling using Excel to transform raw datasets into structured analytical data.
- Created interactive dashboards using Power BI to monitor operational metrics and identify performance gaps.

PROJECTS

Cricket Data Analytics Dashboard | Python, Pandas, SQL, Power BI

Aug 2025

- Built an end-to-end cricket analytics pipeline by processing raw JSON match data using Python and Pandas.
- Designed fact and dimension tables including player statistics and match summaries for efficient analysis.
- Developed an interactive Power BI dashboard to analyze batting averages, strike rates, and bowling performance.

Healthcare Management Database System | Python, HTML, MS Access, SQL

Aug 2024 – Dec 2024

- Developed a MySQL relational database to manage hospital records, appointments, and billing.
- Automated scheduling and billing using MS Access forms and SQL queries.
- Developed advanced SQL queries to track department performance and billing summaries.
- Used Python and Jupyter Notebook to analyze patient and billing data.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Matplotlib), R, SQL

Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Data Wrangling

Data Visualization: Tableau, Power BI, Google Data Studio, Matplotlib

Databases: MySQL, PostgreSQL, Microsoft SQL Server

Tools: Excel (Pivot Tables, VLOOKUP), Jupyter Notebook, Git

Cloud Platforms: Google Cloud Platform, Microsoft Azure

Machine Learning: Scikit-learn, XGBoost, TensorFlow

CERTIFICATIONS

Google Data Analytics Professional Certificate — Coursera

Microsoft AZ-900: Microsoft Azure Fundamentals

Microsoft PL-900: Microsoft Power Platform Fundamentals
